Firmware update

3

Information To use the full range of functions, ensure that the inverter is updated to the current firmware version during commissioning. The firmware update can be performed online Firmware Update - Online (recommended) (recommended) or offline Firmware Update - Offline.

Firmware Update - Online (recommended)

If the inverter has already been registered in Fronius Solar.web, the update can be started directly via Solar.web. Adding a PV system see **Add PV system to Solar.web**.

Click on "Settings".

2 Login with username and password.
